A witch finds herself face to face with death as she stands at the center of a magical rebellion and back to back with her enemies as she falls deeper into a seductive romance.

Penny Albright has burned night after night to keep her soul free of Malin's contract. Now, she's at the stake again, and this time, it's her freewill about to burn. As the ashes settle over the temple inferno, Halstett faces the Samhain ball and attendance is mandatory. At midnight, when the veil between Life and Death is at its thinnest, the Warden means to destroy magic and the witches who wield it. With her family missing and her friends lost, Penny turns to the Sorcerer chained on the mysterious ninth floor of the library for aid.

He offers a deal: a legion to fight the Warden in exchange for her blood.

Just one drop into the eternal fires will end the Warden's reign and set the Sorcerer free. But as Alice's visions fail and Malin fights the lifeline bond Penny forged to save him, one drop of blood might destroy them all. And with the Warden using Penny's circle of Resistance witch friends as a shield, Penny is forced to choose between the friends she loves and the covens she belongs to.

A single night might spark a war that will tear the world—or Penny's heart—apart.

Last week, Nina Hunnicutt was a professor about to move into a gorgeous new apartment with her long-term boyfriend. Now, she's single, unemployed, and living with her parents. Even more surprising is the fact that Quentin Bell, her childhood neighbor (and okay, fine, crush), is also back in town—and wants to resume the treasure hunt that ended their friendship almost two decades ago.

Hoping the reward promised to whoever finds the rumored riches left behind by the town's eccentric turn-of-the-century seltzer magnate will help her get her life back on track, Nina agrees. Granted, last time the search resulted in a broken heart and seventeen years of silence. But Nina's older and wiser now. Surely things will be different?

Except, Quentin is also older and wiser...not to mention distractingly handsome. As they resume their hunt, Nina and Quentin begin to rediscover all the things they once loved best about each other. But unlike the treasure, the secrets that left them empty-handed the first time refuse to stay buried. If there's any hope of finding what they're looking for—and for a future together—Nina and Quentin will have to be brave enough to excavate their past as well.

In the vein of Alice Hoffman comes a novel full of love, disaster, and magic.

Jamie is basically your average New England academic in-training--she has a strong queer relationship, an esoteric dissertation proposal, and inherited generational trauma. But she has one extraordinary secret: she's also a powerful witch.

Serena, Jamie's mother, has been hiding from the world in an old one-room schoolhouse for several years, grieving the death of her wife and the simultaneous explosion in her professional life. All she has left are memories.

Jamie's busy digging into a three-hundred-year-old magical book, but she still finds time to teach Serena to cast spells and help her come out of her shell. But Jamie doesn't know the whole story of what happened to her mom years ago, and those secrets are leading Serena down a destructive path.

Now it's up to this grad student and literature nerd to understand the secrets behind this mysterious novel from 1749, unearth a long-buried scandal hinted therein, and learn the true nature of magic, before her mother ruins both of their lives.

A pulse-pounding blend of science fiction, dystopian adventure, and space opera

Fen's world is crumbling. Newearth—a once-promising planet gifted by the all-powerful alien Makers—now suffers from failed terraforming, leaving its people on the brink of collapse. Fen, a skilled mercenary bodyguard, has spent her life working under a cunning magistrate, entangled in the politics of an empire that shattered her family. With nothing left to lose, Fen escapes with a single map and an old quarterstaff, embarking on a dangerous quest to seek out the last remnants of the rebellion. But the underground insurgents may be even more dangerous than the Sovereign's army. At the center of it all stands Alekhai, the Sovereign's heir—a brutal, power-hungry force of destruction. Though he embodies everything Fen despises, his dangerous plans might be the empire's last chance at survival...or the final push to its doom.

Good things happen at the lake. That's what Alice's grandmother says, and it's true. Alice spent just one summer there at a cottage with Nan when she was seventeen—it's where she took that photo, the one of three grinning teenagers in a yellow speedboat, the image that changed her life.

Now Alice lives behind a lens. As a photographer, she's most comfortable on the sidelines, letting other people shine. Lately though, she's been itching for something more, and when Nan falls and breaks her hip, Alice comes up with a plan for them both: another summer in that magical place, Barry's Bay. But as soon as they settle in, their peace is disrupted by the roar of a familiar yellow boat, and the man driving it.

Charlie Florek was nineteen when Alice took his photo from afar. Now he's all grown up—a shameless flirt, who manages to make Nan laugh and Alice long to be seventeen again, when life was simpler, when taking pictures was just for fun. Sun-slanted days and warm nights out on the lake with Charlie are a balm for Alice's soul, but when she looks up and sees his piercing green gaze directly on her, she begins to worry for her heart.

Because Alice sees people—that's why she is so good at what she does—but she's never met someone who looks and sees her right back.

Everyone wonders about the one that got away . . . and thanks to an alternate reality tech project, one woman will get the chance to actually find out.

When Laurel Everett finds a ring in her longtime boyfriend Ollie's sock drawer, she should be thrilled . . . so why is she left wondering "what if?" Specifically, what if she'd taken up her work crush, Drew, on his offer of a date just after she and Ollie got together? Thanks to her job at tech giant Pixel, she might have a way to answer that question through the AltR project, which promises users a glimpse of alternate realities. Or it will, once the quantum computers it relies on get more powerful.

When the program actually works and Laurel wakes up five years into her life with Drew, she's fascinated . . . then increasingly horrified as she continues to slip between that world and her "real" life seemingly at random. As she moves back and forth between the two worlds, Laurel realizes choosing the right life might not be as simple as deciding between two men and the different visions of happiness they offer. And if she doesn't find a way to untangle herself from the quantum mess she's unleashed, she might wind up stuck in the wrong life, or worse, deleted entirely like a faulty line of code. . . .

A gothic, mist-cloaked tale of a young prophetess forced on an impossible quest with the one knight whose future is beyond her sight.

Sybil Delling has spent nine years dreaming of having no dreams at all. Like the other foundling girls who traded a decade of service for a home in the great cathedral, Sybil is a Diviner. In her dreams she receives visions from six unearthly figures known as Omens. From them, she can predict terrible things before they occur, and lords and common folk alike travel across the kingdom of Traum's windswept moors to learn their futures by her dreams.

Just as she and her sister Diviners near the end of their service, a mysterious knight arrives at the cathedral. Rude, heretical, and devilishly handsome, the knight Rodrick has no respect for Sybil's visions. But when Sybil's fellow Diviners begin to vanish one by one, she has no choice but to seek his help in finding them. For the world outside the cathedral's cloister is wrought with peril. Only the gods have the answers she is seeking, and as much as she'd rather avoid Rodrick's dark eyes and sharp tongue, only a heretic can defeat a god.

When a wealthy family goes on a South African safari, a series of shocking murders rocks their exclusive compound.

Odelia Babel, CEO of a sustainable fashion empire, is about to marry for the second time—to a man twenty-five years her junior. Asher Bach is the thirty-something designer of Odelia's luxury clothing line, the darling of every high-fashion journalist, and madly in love with Odelia.

Eager to celebrate her nuptials with her nearest and dearest, Odelia invites her adult children, her daughter-in-law, her grandchild, and her best friend/assistant to an all-expenses-paid luxury safari at Leopard Sands in South Africa, the Babel family's favorite vacation spot. In its soil, they have deep roots—and even deeper secrets.

It seems like the perfect trip, but not everyone is thrilled for the happy couple. Amid game drives in the bush and bonfires beneath the desert stars, tensions among the family threaten to boil over. And then, the morning after a big fight with her son Sam—and hours before the wedding—Odelia is found murdered. Sam is immediately the prime suspect, but he claims he has an ironclad alibi—he was with his twin sister, Bailey. Only Bailey is nowhere to be found...

As the heat roils, desperate poachers and ferocious animals lurk, and dark motives fester, it becomes clear that whoever killed Odelia isn't quite finished yet, and the rest of the Babel family is their prey.

"A compelling, high-octane exploration of privilege, complex family relationships, and class set at a luxurious, all-inclusive safari getaway surrounded by the deadliest of predators - human and animal. Atmospheric, addictive, and teeming with characters who all have something to hide, THE SAFARI will have you up all night hungrily hunting the pages for stealthily laid clues. A must read!"

May 2025

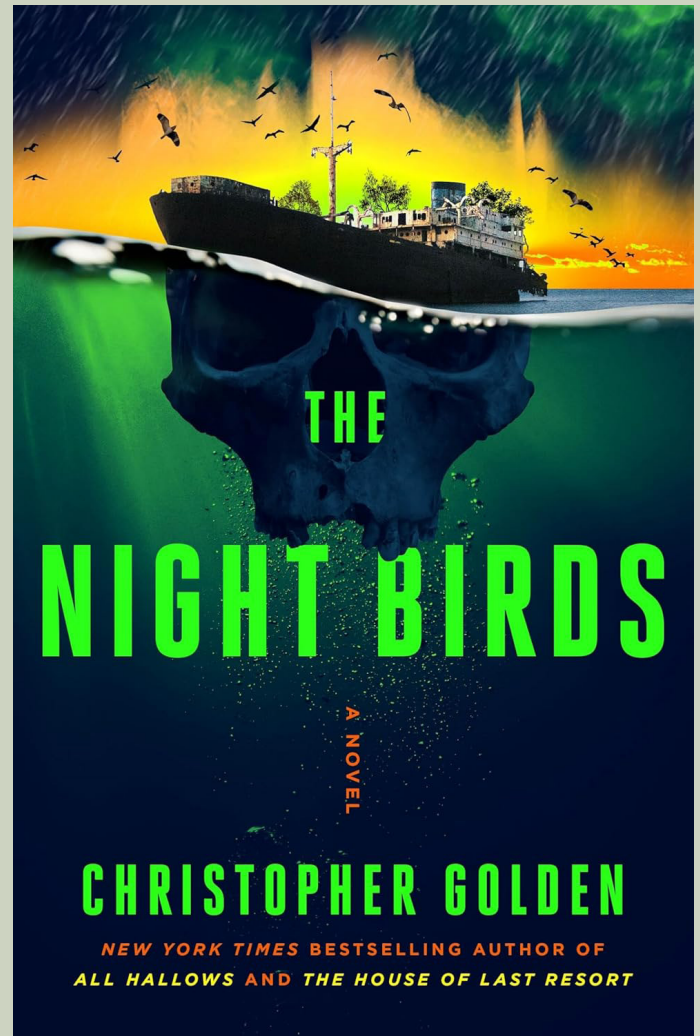

The next gripping, atmospheric horror novel from New York Times bestselling author Christopher Golden, set in a deteriorated, half-sunken freighter ship off the coast of Galveston, TX.

Charlie Book and Ruby Cahill have history. After their love ended in heartbreak years ago, they never expected to see each other again.

Now, as part of his work for the Texas Parks and Wildlife Department, Book lives aboard the Christabel, a 19th century freighter half-sunken off the shore of Galveston. Over many years, a massive forest of mangrove trees has grown up through the deck of the ship, creating a startlingly beautiful enigma Book calls the Floating Forest. As a powerful storm churns through the Gulf, he intends to sleep on board as usual.

But when he arrives at the dock, he's stunned to find Ruby there waiting for him. And she's not alone. With her are a mysterious woman and her infant child, asking Book to hide them safely aboard the Christabel while they're on the run. Only it isn't the police who are after them, it's a coven of witches the woman, Mae, has fled, stealing away the helpless infant for whom the coven had hideous plans...or so Mae claims.

It's lunacy and Book wants nothing to do with it. But after the way he and Ruby ended things, and the unspoken pain between them, he can't refuse. Yet even as he brings them out to the ruined ship and its floating forest, there are shadowed figures looming back in Galveston, waiting out the storm. And despite the worsening wind and rain, the night birds are flying, scouring the coastline for their prey.

"Christopher Golden's novels are always an immersive experience, building tension and terror with every chapter. Christopher takes everything up a notch with *The Night Birds*, plunging me into a page-turning nightmare full of eerie characters, dreadful twists, and visceral horror in one of the most haunting settings I've yet to experience."

Mansfield has a better solution, one far more appropriate and direct. Every trafficker he finds is handed over to the father of the victims, where the families themselves decide appropriate justice.

After working quietly in the shadows for years, Mansfield is discovered by David Bruni, a tech billionaire with aspirations of putting his money to better use. He has created a powerful computer system called PICSS, capable of 'stitching' together billions of daily photographs taken around the globe and uploaded to the cloud. Producing a snapshot of anywhere in the world in near real-time. But what Bruni demonstrates to Mansfield is the astounding ability to "roll back" those images, in effect creating a digital time machine, reaching back days to weeks - even years.

Bruni built the system in a desperate bid to find his own missing daughter and Mansfield is here to find her. The PICSS system will uncover details unknown to all investigators. Details that suggest the disappearance of Bruni's daughter may not be at all what was previously believed.

Colette Marceau has been stealing jewels for nearly as long as she can remember, following the centuries-old code of honor instilled in her by her mother, Annabel: take only from the cruel and unkind, and give to those in need. Never was their family tradition more important than seven decades earlier, during the Second World War, when Annabel and Colette worked side by side in Paris to fund the French Resistance.

But one night in 1942, it all went wrong. Annabel was arrested by the Germans, and Colette's four-year-old sister, Liliane, disappeared in the chaos of the raid, along with an exquisite diamond bracelet sewn into the hem of her nightgown for safekeeping. Soon after, Annabel was executed, and Liliane's body was found floating in the Seine—but the bracelet was nowhere to be found.

Seventy years later, Colette—who has “redistributed” \$30 million in jewels over the decades to fund many worthy organizations—has done her best to put her tragic past behind her, but her life begins to unravel when the long-missing bracelet suddenly turns up in a museum exhibit in Boston. If Colette can discover where it has been all this time—and who owns it now—she may finally learn the truth about what happened to her sister. But she isn't the only one for whom the bracelet holds answers, and when someone from her childhood lays claim to the diamonds, she's forced to confront the ghosts of her past as never before. Against all odds, there may still be a chance to bring a murderer to justice—but first, Colette will have to summon the courage to open her own battered heart.

Alice Scott is an eternal optimist still dreaming of her big writing break. Hayden Anderson is a Pulitzer-prize winning human thundercloud. And they're both on balmy Little Crescent Island for the same reason: to write the biography of a woman no one has seen in years—or at least to meet with the octogenarian who claims to be the Margaret Ives. Tragic heiress, former tabloid princess, and daughter of one of the most storied (and scandalous) families of the twentieth century.

When Margaret invites them both for a one-month trial period, after which she'll choose the person who'll tell her story, there are three things keeping Alice's head in the game.

One: Alice genuinely likes people, which means people usually like Alice—and she has a whole month to win the legendary woman over.

Two: She's ready for this job and the chance to impress her perennially unimpressed family with a Serious Publication.

Three: Hayden Anderson, who should have no reason to be concerned about losing this book, is glowering at her in a shaken-to-the core way that suggests he sees her as competition.

But the problem is, Margaret is only giving each of them pieces of her story. Pieces they can't swap to put together because of an ironclad NDA and an inconvenient yearning pulsing between them every time they're in the same room.

And it's becoming abundantly clear that their story—just like the tale Margaret's spinning—could be a mystery, tragedy, or love ballad...depending on who's telling it.

Lifelong best friends say 'I do' to a marriage of convenience, trading vows for a financial safety net and benefits.

Evie Bloom pays attention to the details. Her very job depends on it--as an aspiring Foley artist, she's responsible for every crisp footstep, smacking kiss, and distinct sound in film and television. So when she's selected for a fellowship opportunity that would make all her career dreams come true, she's quick to spot the catch: there are no health benefits, and for someone with a chronic illness, that's a non-starter.

Theo Cohen is an elementary school teacher who can't afford to live on his own in LA, and is facing eviction after his roommates couple up and move out of their rent-controlled apartment. But there is one loophole in his lease: each tenant must meet an income threshold, unless the tenants are married.

For Theo, the answer is obvious. Marry Evie, his best friend since forever. It's not as if they don't spend all their free time together anyways. Not only will Theo be able to keep his apartment, but Evie can be added to his insurance plan so she can accept her dream fellowship. It's such a logical, practical solution. Never mind that Evie doesn't really want to be married--not to Theo, not to anyone--ever. Or the small, complicating fact that Theo has always been a little bit in love with Evie.

But it doesn't have to be a big deal. Marriage. It will just give them space to breathe, and much-needed relief from the daily financial stress. It won't change anything. It's . . . going to change everything.

At least the split was amicable: he and his ex-wife, LEAH, are still on friendly terms, and he wouldn't trade his eight-year-old son, OLIVER, for anything. Now he's spending three weeks with them on a long-planned trip to Italy to visit Noah's grandparents' hometown. It's a chance to get in touch with his roots, and to rediscover the parts of himself he'd set aside to be the kind of man and father he thought he needed to be.

The last thing Ramin expects is to run into Noah Rossi at a gelateria in Milan. Ramin and Noah went to high school together—and Ramin had the biggest crush on Noah. Make that obsession. Noah was a gymnast, a musician, and worst of all, kind to Ramin, who spent all of high school deep in the closet. And Noah's aged like a fine wine—still fit, still handsome, and worst of all, still kind.

Alice Storm hasn't been welcome at her family's magnificent private island off the Rhode Island coast in five years—since she was cast out to build a life beyond the Storm name, influence, and untold billions. But the shocking death of her larger-than-life father changes everything.

Now Alice plans to keep her head down, pay her final respects (such as they are), and leave the minute the funeral is over. Unfortunately, her father had other plans. The eccentric, manipulative patriarch left his family a final challenge—an inheritance game designed to upend their world. The rules are clear: spend one week on the island, complete his assigned tasks, and receive the inheritance.

A week on Storm Island is no easy task for Alice. Every corner of the sprawling old house is bursting with chaos: Her older sister's secret love affair. Her brother's unyielding arrogance. Her younger sister's constant analysis of the vibes. Her mother's cold judgment. And all under the stern, watchful gaze of Jack Dean, her father's intriguing, too-handsome second-in-command. It will be a miracle if Alice manages to escape unscathed.

A smart and tender story about the transformative power of grief, love, and family, this luscious novel explores past secrets, present truths, and futures forged in the wake of wild summer storms.

As the healer's daughter, Malka has seen how the wood's curse has plagued her village, but the Ozmini Church only comes to collect its tithe, not to protect heretics with false stories of monsters in the trees. So when a clergy girl wanders too close to the forest and Malka's mother is accused of her murder, Malka strikes an impossible bargain with a zealot Ozmini priest. If she brings the monster out, he will spare her mother from execution.

When she ventures into the shadowed woods, Malka finds a monster, though not the one she expects: an inscrutable, disgraced golem who agrees to implicate herself, but only if Malka helps her fulfill a promise first and free the imprisoned rabbi who created her.

But a deal easily made is not easily kept. And as their bargain begins to unravel a much more sinister threat, protecting her people may force Malka to endanger the one person she left home to save-and face her growing feelings for the very creature she was taught to fear.

Joni Lark has a secret. She's one of the most coveted songwriters in LA, and yet she can't write. There's an emptiness inside her, and nothing seems to fill it.

When she returns to her hometown of Vienna Shores, North Carolina, she hopes that the sand, the surf, and the concerts at The Revelry, her family's music venue, will spark inspiration. But when Joni gets there, nothing is how she left it. Her best friend is hiding something, her mother's memories are fading fast, and The Revelry is closing.

How can Joni write when her world is leaving her behind?

Until she hears it. A melody in her head, lyric-less and half-formed, and an alluring and addictive voice to go with it—belonging, apparently, to a wry musician with an emptiness of his own.

Surely, he's a figment of Joni's overworked imagination.

Then a very real man shows up in Vienna Shores. He's arrogant and guarded—nothing like the sweet, funny voice in Joni's head—and he has a plan for breaking their inconvenient telepathic connection: finish the song haunting them both and hope they don't risk their hearts—or their secrets—in the process.

Because that melody, the one drawing them together . . . what if it's there for a reason?

"Sounds Like Love gives new meaning to what it means to make a 'connection' with someone. The whimsy and what-ifs of Ashley Poston's novels have made her a must-buy for me!"

With a dash of magic and an ensemble cast of oddball, small-town characters, this feel-good novel explores forgiveness, family, and the sense of humor it takes to live with the ones we love the most.

Ebey's End is a small town on an island off the Pacific coast, reachable only by ferry (assuming the gods are with you and it's not a Tuesday). It's a comfortable, familiar (but okay, fine, sometimes lonely) life for its resident grocer Anita Odom. That is, until fourteen-year-old July shows up on her doorstep.

Taking in the recently orphaned daughter of an estranged cousin had not been on Anita's to-do list. In fact, it's a terrible idea. Anita is ill-suited, ill-prepared, and absolutely certain the entire enterprise will end in disaster—for both of them.

From the moment she arrives, July seems to "know" what each customer at the Island Grocery needs. They're small things: a housekeeping magazine slipped into old Mr. Daly's basket or a coconut cream pie pressed into the hands of Pastor Chet. But one by one, these gifts start to change the lives of nearly everyone in town in ways much larger than they—or July—could have imagined.

It's not long before secrets are exposed and questions emerge, and everyone in Ebey's End has to open their hearts a little wider to make room for it all.

"Set on a quirky island in the Puget Sound where there's nowhere to go and the ferry service is erratic, *The Peculiar Gift of July* is an absolutely charming novel of families and small-town life, and how the simplest mysteries of our lives touch all those around us. Ashley Ream is a fabulous writer who turns a great phrase, amuses with clever humor, and adds just the right amount of sentimentality and emotion for a satisfying ending—book clubs will love this book!"—Garth Stein, #1 New York Times bestselling author of *The Art of Racing in the Rain*

Avon/HarperCollins
August 2025

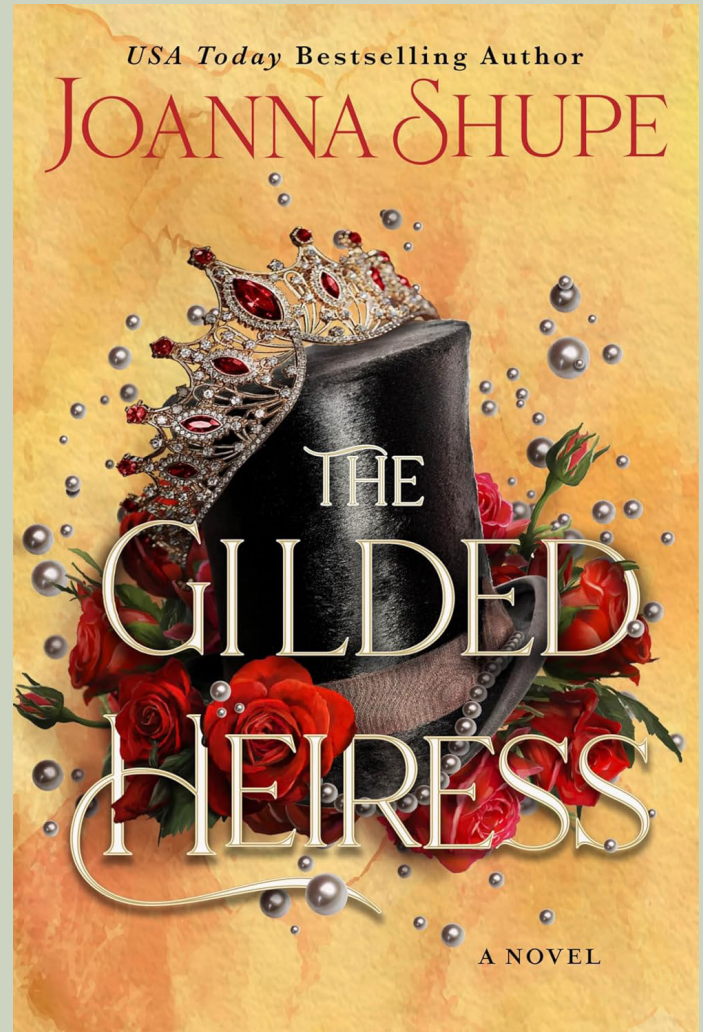

A spicy Anastasia story full of secrets and betrayal, set among the glittering streets of New York City's Gilded Age.

In 1880 a baby was stolen from the wealthiest family in America. Though no ransom was ever demanded, the Pendelton family never gave up hope . . . and their reward became the stuff of legend.

After being raised in a children's asylum, Josie Smith ends up on the streets and quickly learns how to take care of herself. Her singing voice draws crowds on every corner, and she'll stop at nothing to become famous and travel the world, loved and adored by all. Maybe then she won't think about the family who gave her away as an infant.

Leo Hardy isn't afraid to use his charm and wits to make a fast buck, especially with a mother and five siblings to support. When he stumbles upon a beautiful young woman singing on the street, Leo notices her striking resemblance to the infamous missing baby's mother, Mrs. Thomas Pendelton. The Hardys lost everything thanks to the Pendeltons, and once Leo sees Josie, he seizes the opportunity to settle the score. All he needs to do is pull off the biggest swindle of his career.

As the two are catapulted into Knickerbocker High Society, they grow closer to their goal, as well as to each other. But secrets can only stay hidden for so long. Soon the truth unfolds, and both Josie and Leo must separate what's real from what's just gilding.

Nothing sucks more than dating—especially when you've been bad at it for three centuries.

Tiffenie Ruba is 300 years old and still doesn't have her life together. She doesn't own a home—typical for a Millennial, which she often gets mistaken for—and she hasn't had a relationship in forever (almost literally). When she's not working at the local blood bank, she's watching Hallmark movies with her cat. Tiffenie has an eternity to go but she knows she can't go on like this.

But when she suddenly inherits a charming inn in the picture-perfect town of Valentine, Vermont (due to a case of mistaken—okay, stolen—identity), she has a chance to live out all of her Hallmark fantasies.

Unfortunately, she has to bring along a new vampire she accidentally created, pretend to be someone else, and navigate a love triangle with a hot Christmas tree farmer and her old master Vlad, who she's still totally mad at. Can she pull it all off—and finally learn a lesson along the way?

With biting wit, a dash of spice, and the cozy warmth of a great Hallmark movie, *Undead and Unwed* will make you laugh until you cry as Tiffenie bumbles her way toward self-improvement and true love.

"Look at you, eating magic like you're one of us."

Doctor Walden is the Director of Magic at Chetwood School and one of the most powerful magicians in England. Her days consist of meetings, teaching A-Level Invocation to four talented, chaotic sixth formers, more meetings, and securing the school's boundaries from demonic incursions.

Walden is good at her job-no, Walden is great at her job. But demons are masters of manipulation. It's her responsibility to keep her school with its six hundred students and centuries-old legacy safe. And it's possible the entity Walden most needs to keep her school safe from-is herself.

*"I've really messed it all up, Georgia," Junie says.
"And this time it's the shop. June's is in trouble."*

June's Beauty Shop is a staple in Whitetail, a small Southern town north of Atlanta. It may look like an outdated hole-in-the-wall slathered in Dolly Parton memorabilia, but to the women in town, it is a sacred space.

To Georgia and Junie Scott, it is their family legacy, particularly their late mother's. For generations, the shop has been passed to the oldest daughter, always named June. But Mama wanted more for her firstborn.

Now Georgia is living the life everyone expected, the life everyone wanted for her. Everyone, that is, except her. But what can a girl do when her mother's last wish was for Georgia to get out of Whitetail? So that's what she did. She lives in Atlanta, has a swanky job, drives a fancy car, and—as far as her family knows—makes the big bucks.

It should be no surprise then when Junie asks for fifty grand to fix her latest mess. But Georgia's never had that kind of money. Dad and the aunts don't have it either. To save June's, they'll have to get creative.

In the year 2106, climate change has altered the world, transforming borders, cities, and socioeconomic structures. Additionally, a cosmic event known as the “Bloom” has awakened psionic abilities in a small percentage of the population.

One such individual is Maida Sun, who possesses the ability to know the history of objects she touches. In the course of her new job with a cultural recovery project in San Francisco, she comes across an object that plunges her into the lives of Li Nuan, a sex-trafficked girl in a Chinatown brothel in 1906 longing for freedom, and Nathan, a tech-designer and hedonist in 2006 seeking greater purpose.

When a chance encounter with a political leader’s watch reveals a plan to eliminate psions – people like her – Maida must find a way to stop his agenda before it gains traction.

Flashes of the past and glimpses of the future provide Maida, Li Nuan and Nathan clues to help their own situations as they, each in their own way, confront exploitation and fight for liberation while living under the specter of environmental collapse.

An intense and thoughtful time-travelling dystopian fantasy where three individuals, psychically linked through time, fight enslavement, exploitation, and environmental collapse.

Queen Coralys rules the Kingdom of the Five Isles, but when disaster strikes, killing her husband and destroying half her nation, she pleads with the gods for salvation. And they do save her, turning back the terrible winds and tide, and snatching her islands from the brink of destruction.

But the gods have a wicked sense of justice and they demand an exchange for their help: Coralys must marry the first man to set foot on her pier. Coralys expects the fleet of a neighboring country to come to rescue her people, led by its prince, a loyal ally. What she gets instead is a fisherman so sunburnt and stinking that her court can barely keep their breakfast down.

Coralys, undaunted, marries the fisherman just as she promised the gods, and sets out with him in his unkempt dinghy, with nothing but hopes of revenge against the gods to keep her from despair. But what this fearless queen does not know is that the fisherman is actually the god of the sea and he stepped on her dock on purpose.

His own kingdom besieged, his body terribly wounded, and his place as a god threatened, the god of the sea has plans to turn the tides set against him and finally offer a place of refuge for his people. But to work the magic he needs will require the willing help of the one woman bent on his destruction.

HOW SOUND
CREATES THE WORLD

Sound and musical patterning govern the universe.

This breathtaking notion, acknowledged by many scientists but its implications not fully understood, will be laid bare for the first time in *The God Notes*. As this book will convincingly demonstrate, sound is at the very core of existence, and we and everything around us are largely an acoustical creation.

As *The God Notes* will reveal, certain sounds in our world – especially those below our capacity to hear – have profound effects on human biology, altering consciousness, transporting us into a mystical state, with pronounced positive physical effects. Our skin tingles, our emotions soar, we vibrate in time to the music. Within seconds, we arrive at a mystical state of wonderment.

The implications about the origins of music and the role of sound in the universe to be presented in this book are both mind-blowing and paradigm-busting, challenging many prevailing beliefs about biology, ecology, medicine, social psychology, cosmology, and astrophysics – even rendering long accepted theories of evolution as obsolete.

GOD
NOTES

***The God Notes* demands that we question our current model of a blind and random evolutionary process and accept the possibility that our universe is intelligent and purposeful by design. It also raises the possibility that there are specific God notes that are especially healing, and that we can make use of this new knowledge to discern between good notes and bad, using sound as a mechanism to heal ourselves and our world.**
